

BIOGRAPHICAL SKETCH

Provide the following information for the key personnel and other significant contributors in the order listed on Form Page 2.
Follow this format for each person. **DO NOT EXCEED FOUR PAGES.**

NAME David A. Jones, M.D., Ph.D.	POSITION TITLE Associate Physician, Brigham and Women's Hospital		
eRA COMMONS USER NAME DAJ123	Instructor of Dermatology, Harvard Medical School		
EDUCATION/TRAINING (Begin with baccalaureate or other initial professional education, such as nursing, and include postdoctoral training.)			
INSTITUTION AND LOCATION	DEGREE (if applicable)	YEAR(s)	FIELD OF STUDY
Princeton University, Princeton, NJ	BSE	1989	Chemical Engineering
Rice University, Houston, TX	Ph.D.	1994	Chemical Engineering
Baylor College of Medicine, Houston, TX	M.D.	1996	
Massachusetts General Hospital, Boston, MA	Internship	1997	Internal Medicine
Massachusetts General Hospital, Boston, MA	Residency	2000	Dermatology

Positions and Honors

Summers 1985 and 1986 and vacations 1985 to 1988	<u>Associate Software Engineer</u> , Digital Equipment Corp., Marlboro, MA. Various programming assignments associated with a FORTRAN based laboratory information management system.
Summers 1987 and 1988	<u>Research Associate</u> , New England Deaconness Hospital, Boston, MA. Nuclear magnetic resonance and magnetic resonance imaging studies.
Summer 1989	<u>Research Associate</u> , Los Alamos National Laboratory, Los Alamos, NM. Mathematical modelling of receptor-mediated endocytosis.
Fall 1991	<u>Research Associate</u> , Monsanto Corporate Research, Creve Coeur, MO. Leukocyte adhesion under flow conditions.
1990-1994	<u>Graduate student</u> , Rice University, Houston, TX. Thesis advisor Larry V. McIntire, PhD, Leukocyte adhesion under flow conditions.
2000-present	<u>Associate Physician</u> , Brigham & Women's Hospital, Boston, MA and <u>Instructor of Dermatology</u> Harvard Medical School, Boston, MA.

Honors

Nashoba Regional High School: Valedictorian
 Princeton University: High Honors in Chemical Engineering
 NIH National Research Service Award for full funding of MD/PhD program
 Baylor College of Medicine: Honors in Basic Medical Sciences, Alpha Omega Alpha Honor Medical Society
 Baylor College of Medicine MD/PhD program: 1996 Outstanding Student Award
 American Academy of Dermatology: 2002 Young Investigator Award
 Society of Investigative Dermatology: 2003 Eugene M. Farber Research in Psoriasis Award

Research Support

Immunological Studies of Smallpox Immunization 9/01/03-8/31/08

NIH

Role on Project: Co-investigator

Role is to determine the immunodominant antigens in vaccinia vaccination by expression cloning and direct a core facility for expression and purification of dominant antigens, ELISA testing, and ELISPOT testing.

Epidermal Antigens in Psoriasis 2/1/01-1/30/03
National Psoriasis Foundation/USA
Role on Project: Principal Investigator

The goals of this project are to apply the SEREX expression cloning approach to identify new autoantigens in psoriasis, and to further characterize previously identified autoantigens.

Autoantigens in Psoriasis 1/1/01-12/30/01
American Skin Association
Role on Project: Principal Investigator

The major goal of this project is to apply the SEREX expression cloning approach to identify autoantigens in psoriasis.

Tumor Antigens in Cutaneous T Cell Lymphoma 6/1/01-5/31/02
National Leukemia Research Association
Role on Project: Principal Investigator

The major goal of this project is to apply the SEREX technique to identify antigens in cutaneous T cell lymphoma.
